Throughout these lessons, text in this type of box is excerpted, with permission, from *A First Dictionary and Grammar of Láadan*, second edition, by Suzette Haden Elgin.

...text in this type of box is quoted from communications with Suzette Haden Elgin, the founding mother of Láadan.

...text in this type of box represents less-formal Láadan phraseology. This is perfectly understandable Láadan, only eschewing some of the features required for absolute grammatical formality.

...and, finally, this type of box contains notes on how Láadan was originally, contrasted with how it has evolved since Suzette Haden Elgin died and a second generation has taken over the development of Láadan.
