Suzette's Notes On Adding To Láadan
Vocabulary

Throughout these lessons, text shaded with this color is excerpted, with permission, from *A First Dictionary and Grammar of Láadan*, second edition, by Suzette Haden Elgin.

...text shaded in this color is quoted from communications with Suzette Haden Elgin, the founding mother of Láadan.

...text shaded in this color represents less-formal Láadan phraseology. This is perfectly understandable Láadan, only eschewing some of the features required for absolute grammatical formality.

...and, finally, text shaded in this color contains notes on how Láadan was originally, contrasted with how it has evolved since Suzette Haden Elgin died and a second generation has taken over the development of Láadan.
